

Date : 09/05/2025
Project No : 2024C195
Client Company : CWM
Arrival Time : 09/04/2025 22:30
Onsite Hours : 9:00

ASEC Report ID : 85934
Name of the Project : Ramp 21 Replacement
Project Location : HJALA
Weather : Clear
Departure Time : 09/05/2025 07:30
ASEC Technician Name : Austin Coleman

As requested, the site was visited by our AS Engineering and Consulting (ASEC) representative for the purpose of providing quality control inspection and testing services. Visual observation techniques were employed to verify compliance with project drawing/specifications, applicable codes, and materials submittals. The following observations were observed on site this day.

Our ASEC representative arrived on site and found that the placement of Graded-Aggregate-Base (GAB) was underway. The third layer placed was compaction tested using a nuclear density gauge with the QA technician present. Test results met job specifications for compaction.

We appreciate the opportunity to be of service to you on this project. If you have any questions regarding this report, please feel free to contact us. We will be more than happy to discuss it with you.
