ASEC Report ID : 72121
Name of the Project : Old Griffin Rd - Hawthorne Reserve
Project Location : Dallas
Weather :
Departure Time : 10/25/2024 15:30
ASEC Technician Name : Solomon Cherie

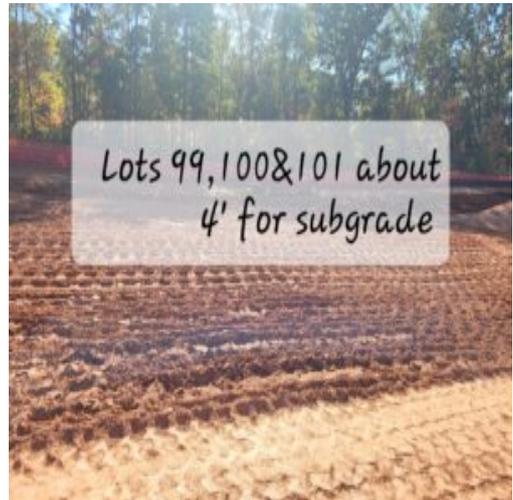

Our AS Engineering & Consulting (ASEC) representative arrived on site to observe field activities. The following tasks were performed:

Observed the placement of fill for Lots #70 through 77 and #99 through 101 today. Compaction tests were performed using a nuclear density gauge. Overall, the results of density testing confirmed that fill compaction met the project and ASTM requirements. Additionally, general probing found the subgrade to be stable. Results are attached in separate reports.

Please contact us if you have any questions regarding this report or of the density test results.

Picture depicting status of fill for building pads 70-72 and 77.

Building pads for lots 99-101 and internal road
