ASEC Technician Name : Clyde Smith

Our AS Engineering & Consulting (ASEC) representative arrived on site to observe field activities. The following tasks were performed:

On the above date our representative performed density testing on subgrade soils for the building pad using a Troxler nuclear gauge model 3430, serial number 29588. Compaction results were in compliance with project specifications and are attached.

Please contact us if you have any questions regarding this report or of the density test results.
