As requested, a representative from AS Engineering and Consulting (ASEC) visited the site to provide quality control inspection and testing services. Visual observation techniques were employed to verify compliance with project drawings/specifications, applicable codes, and approved material submittals.

Observations Noted on Site:

- Work was in progress on the stormwater trench, extending from MHA0 to MHA1 and MHA2.
- The contractor was also performing drilling operations for the stormwater trench between MHA0 and MHB1. This work continued throughout the day.
- The site was not ready for density testing at the time of the visit.

We appreciate the opportunity to be of service on this project. Should you have any questions regarding this report, please do not hesitate to contact us. We would be more than happy to discuss it with you
