

Date : 07/28/2025
Project No : 2024C213
Client Company : WDG
Arrival Time : 07/28/2025 06:00
Onsite Hours : 04:00

ASEC Report ID : 83868
Name of the Project : Covington Town Center PH II
Project Location : Covington, GA
Weather : Partly cloudy
Departure Time : 07/28/2025 10:00
ASEC Technician Name : Austin Coleman

As requested, the site was visited by our AS Engineering and Consulting (ASEC) representative for the purpose of providing quality control inspection and testing services. Visual observation techniques were employed to verify compliance with project drawing/specifications, applicable codes, and materials submittals. The following observations were observed on site this day.

Our ASEC representative arrived on site to perform density testing on the roadway GAB (Graded Aggregate Base) using a nuclear density gauge. All density testing met job specifications for compaction including areas of some concern from proof-rolling results done the previous week.

We appreciate the opportunity to be of service to you on this project. If you have any questions regarding this report, please feel free to contact us. We will be more than happy to discuss it with you.
