Project No : 2024C217  
Client Company : Artisan  
Arrival Time : 10/07/2024 08:05  
Onsite Hours : 08:45

ASEC Report ID : 71534  
Name of the Project : Naturewalk - 7 Hills Amenities  
Project Location : Dallas  
Weather : sunny  
Departure Time : 10/07/2024 16:55  
ASEC Technician Name :

As requested, the site was visited by our AS Engineering and Consulting (ASEC) representative for the purpose of providing quality control inspection and testing services. Visual observation techniques were employed to verify compliance with project drawing/specifications, applicable codes, and materials submittals. The following observations were observed on site this day.

- Upon arrival, the contractor was engaged in excavations using a Komatsu PC 360LC on the west of the project site. Fill was being transported with one tandem dump truck, while dozing was performed with a Komatsu D85EX. Compaction work was carried out using a CAT 563 E.
- Boulder fill is being used in backfilling under the tennis court with proof-rolling determining stability in lieu of density testing.

We appreciate the opportunity to be of service to you on this project. If you have any questions regarding this report, please feel free to contact us. We will be more than happy to discuss it with you.
