Project No : 2024C217
Client Company : Artisan
Arrival Time : 10/09/2024 08:05
Onsite Hours : 08:00

ASEC Report ID : 71690
Name of the Project : Naturewalk - 7 Hills Amenities
Project Location : Dallas
Weather : sunny
Departure Time : 10/09/2024 17:00
ASEC Technician Name : Vamsi Polisetty

As requested, the site was visited by our AS Engineering and Consulting (ASEC) representative for the purpose of providing quality control inspection and testing services. Visual observation techniques were employed to verify compliance with project drawing/specifications, applicable codes, and materials submittals. The following observations were observed on site this day.

- Upon arrival, the contractor was actively engaged in excavations on the project site using a Komatsu PC 360LC for the slopes of roadway. The fill was transported using a tandem dump truck. Grading continued with a D85EX in front of the clubhouse. Backfilling with boulder fill continue near the front of the clubhouse. Proof-rolling was utilized to verify stability in lieu of density testing.

We appreciate the opportunity to be of service to you on this project. If you have any questions regarding this report, please feel free to contact us. We will be more than happy to discuss it with you
