Name of the Project : Naturewalk - 7 Hills Amenities
Project Location : Dallas
Weather : sunny/cloudy
Departure Time : 01/25/2025 16:00
ASEC Technician Name : Vamsi Polisetty

As requested, the site was visited by our AS Engineering and Consulting (ASEC) representative for the purpose of providing quality control inspection and testing services. Visual observation techniques were employed to verify compliance with project drawing/specifications, applicable codes, and materials submittals. The following observations were observed on site this day.

Excavation for Manhole C3 continued using a Takeuchi EX3 TB290 excavator. Pavement removal and clearing, which began on the previous day, continued into the current day. During the excavation process for Manhole C3, several utility lines were encountered, including electrical cables, gas pipelines, and water pipelines. The contractor continued manhole installation having to work around the existing utilities.

We appreciate the opportunity to be of service to you on this project. If you have any questions regarding this report, please feel free to contact us.
