

Date : 07/15/2025
Project No : 2024C217
Client Company : Artisan
Arrival Time : 07/15/2025 09:00
Onsite Hours : 03:30

ASEC Report ID : 83020
Name of the Project : Naturewalk - 7 Hills Amenities
Project Location : Dallas
Weather : sunny
Departure Time : 07/15/2025 12:30
ASEC Technician Name : Clyde Smith

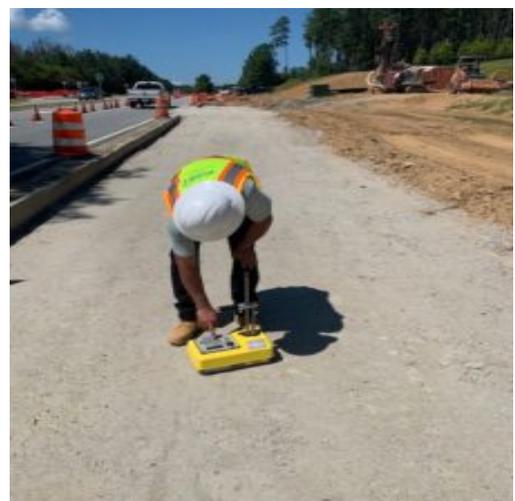

As requested, the site was visited by our AS Engineering and Consulting (ASEC) representative for the purpose of providing quality control inspection and testing services. Visual observation techniques were employed to verify compliance with project drawing/specifications, applicable codes, and materials submittals. The following observations were observed on site this day.

Our ASEC representative was on site as requested to observe the placement of base stone at the east side deceleration lane. Density tests were performed using a Troxler nuclear gauge model 3430, serial no 38069. The compaction results were found to be in compliance with site specifications.

We appreciate the opportunity to be of service to you on this project. If you have any questions regarding this report, please feel free to contact us. We will be more than happy to discuss it with you.
