ASEC Report ID : 83371
Name of the Project : Naturewalk - 7 Hills Amenities
Project Location : Dallas
Weather : Sunny
Departure Time : 07/25/2025 16:00
ASEC Technician Name : Clyde Smith

As requested, the site was visited by our AS Engineering and Consulting (ASEC) representative for the purpose of providing quality control inspection and testing services. Visual observation techniques were employed to verify compliance with project drawing/specifications, applicable codes, and materials submittals. The following observations were observed on site this day.

Our ASEC representative picked up one set of concrete test cylinders molded for the deceleration lane for concrete placed on Seven Hills blvd. These specimens were returned to our laboratory for compressive strength testing.

We appreciate the opportunity to be of service to you on this project. If you have any questions regarding this report, please feel free to contact us. We will be more than happy to discuss it with you.

Kenneth Mosman
