ASEC Report ID : 77233  
Name of the Project : Cottages at Villa Rica - Rock Blasting  
Project Location : Villa Rica  
Weather : Cloudy  
Departure Time : 02/06/2025 16:30  
ASEC Technician Name : Micah Aycock

The aforementioned AS Engineering and Consulting (ASEC) representative visited the Cottages at Villa Rica site to monitor drilling and rock removal operations. The contractor performing the work was Precision Blasting. The following observations were made on-site:

**Blasting Data**

Blasting operations commenced today, beginning north of **Lot #123** and extending past **Lot #132**. The operation involved a single blast, which was executed smoothly and without complications.

The trench covered an area of **1,816** square feet, and the total rock volume blasted was **518.99** cubic yards.

The blasting process was carried out efficiently, and the operation progressed as planned, making significant strides toward the project timeline.

We appreciate the opportunity to assist with this project. Should you have any questions regarding this report or require further clarification, please do not hesitate to contact us. We would be happy to discuss it with you.
