ASEC Report ID : 77235  
Name of the Project : Cottages at Villa Rica - Rock Blasting  
Project Location : Villa Rica  
Weather : Sunny  
Departure Time : 02/07/2025 15:30  
ASEC Technician Name : Micah Aycock

The aforementioned AS Engineering and Consulting (ASEC) representative visited the Cottages at Villa Rica site to monitor drilling and rock removal operations. The contractor performing the work was Precision Blasting. The following observations were made on-site:

### **Blasting Data**

Blasting operations took place along the trench running from Lot #192 south toward Lot #184. This trench had a pay width of 8 feet and included two separate laterals: Lot #186 and Lot #141. The trench covered an area of 2,256 square feet, with a total rock volume of 621.22 cubic yards blasted. The operation proceeded smoothly, was executed efficiently, and made significant progress toward the project timeline.

We appreciate the opportunity to assist with this project. Should you have any questions regarding this report or need further clarification, please do not hesitate to contact us. We would be happy to discuss it with you.
