Project No : 2025C150
Client Company : Davidson Homes
Arrival Time : 03/27/2025 08:00
Onsite Hours : 04:00

As requested, the site was visited by our AS Engineering and Consulting (ASEC) representative for the purpose of providing quality control inspection and testing services. Visual observation techniques were employed to verify compliance with project drawing/specifications, applicable codes, and materials submittals. The following observations were observed on site this day.

Work has continued behind Lots #225, #226, and #227. The excavation for the retaining wall has been continued, with a cut being made using a Kobelco SK300LC excavator. The contractor has successfully removed soft grey soils down to suitable, stable soils.

The excavated material is being moved using a CAT 725 truck, and compaction is being carried out with a Bomag sheep's foot compactor. Additionally, general probing has been performed to verify the stability of the underlying soils.

We appreciate the opportunity to be of service to you on this project. If you have any questions regarding this report, please feel free to contact us. We will be more than happy to discuss it with you.

ASEC Report ID : 79281
Name of the Project : Riverwood Retaining Wall
Project Location : Dallas
Weather : sunny
Departure Time : 03/27/2025 12:00
ASEC Technician Name : Vamsi Polisetty

Date : 03/27/2025
Project No : 2025C150
Client Company : Davidson Homes
Arrival Time : 03/27/2025 08:00
