

Date : 06/30/2025
Project No : 2025C160
Client Company : Artisan
Arrival Time : 06/30/2025 08:30
Onsite Hours : 04:00

ASEC Report ID : 82712
Name of the Project : Rockmart Township - 115 Felton Drive
Project Location : Rockmart
Weather : sunny
Departure Time : 06/30/2025 12:30
ASEC Technician Name : Sean Willett

As requested, the site was visited by our AS Engineering and Consulting (ASEC) representative for the purpose of providing quality control inspection and testing services. Visual observation techniques were employed to verify compliance with project drawing/specifications, applicable codes, and materials submittals. The following observations were observed on site this day.

Our ASEC representative was on site as requested by the contractor (Wilbanks) for the observation/testing of the placement of fill/backfill. Our representative performed moisture checks on fill being used on Lots #127 through #133, #80 through #82, and #137 through #139. The technician observed the contractor placing fill in approximate 8-to-12-inch lifts. The technician observed pumping across Lots #127 and #128 from loaded offroad dump trucks. The technician recommended to scarify and aerate this area prior to recompacting. The contractor agreed. Density testing in this area will be performed on the next workday.

We appreciate the opportunity to be of service to you on this project. If you have any questions regarding this report, please feel free to contact us. We will be more than happy to discuss it with you.
