

Date : 10/15/2025
Project No : 2025C245
Client Company : Bearing Engineering
Arrival Time : 10/15/2025 07:00
Onsite Hours : 03:30

ASEC Report ID : 86958
Name of the Project : Dunkin Donuts 2025
Project Location : US 29, Palmetto, GA
Weather : Sunny
Departure Time : 10/15/2025 10:30
ASEC Technician Name : Sean Willett

As requested, the site was visited by our AS Engineering and Consulting (ASEC) representative for the purpose of providing quality control inspection and testing services. Visual observation techniques were employed to verify compliance with project drawing/specifications, applicable codes, and materials submittals. The following observations were observed on site this day.

Our ASEC representative was on site for the observation/testing of the placement of fill/backfill. There was approximately 2 in to 4 in of soil placed in the roadway since the last tested lift. There are surveyor stakes around the roadway that show approximately 2 ft of fill remaining to be placed. No contractors were present onsite at this time. Our representative will come back once the filling of roadway is completed for final grade testing.

We appreciate the opportunity to be of service to you on this project. If you have any questions regarding this report, please feel free to contact us. We will be more than happy to discuss it with you.
