

Date : 02/23/2026  
Project No : 2026C101  
Client Company : Artisan  
Arrival Time : 02/23/2026 11:30  
Onsite Hours : 03:00

ASEC Report ID : 90545  
Name of the Project : Seven Hills PHASE 13, UNIT 4 Lots  
Project Location : Dallas  
Weather : sunny cold  
Departure Time : 02/23/2026 14:30  
ASEC Technician Name : Clyde Smith

As requested, the site was visited by our AS Engineering and Consulting (ASEC) representative for the purpose of providing quality control inspection and testing services. Visual observation techniques were employed to verify compliance with project drawing/specifications, applicable codes, and materials submittals. The following observations were observed on site this day.

On the above date our representative was on site to observe fill placement for building Lots #40 and 41 and to perform density testing using a Troxler Nuclear gauge model 3430, serial no. 91643. The density tests were performed at elevation -10' below finished subgrade.

We appreciate the opportunity to be of service to you on this project. If you have any questions regarding this report, please feel free to contact us. We will be more than happy to discuss it with you.

Building lots# 40 and 41

Performing density tests at building lots# 40 and 41 at elevation -10'
