

Date : 03/26/2026  
Project No : 2026C101  
Client Company : Artisan  
Arrival Time : 03/26/2026 14:00  
Onsite Hours : 02:00

ASEC Report ID : 92019  
Name of the Project : Seven Hills PHASE 13, UNIT 4 Lots  
Project Location : Dallas  
Weather : sunny  
Departure Time : 03/26/2026 16:00  
ASEC Technician Name : Samara Simha Reddy Kandi

As requested, the site was visited by our AS Engineering and Consulting (ASEC) representative for the purpose of providing quality control inspection and testing services. Visual observation techniques were employed to verify compliance with project drawing/specifications, applicable codes, and materials submittals. The following observations were observed on site this day.

Crew was working on Lots #41 and 42 where field density tests were performed using a nuclear gauge. The tests were performed at designated locations, and the results indicated that the compaction met the required density as per project specifications.

We appreciate the opportunity to be of service to you on this project. If you have any questions regarding this report, please feel free to contact us. We will be more than happy to discuss it with you.
