

Date : 02/11/2026
Project No : 2026C103
Client Company : Artisan
Arrival Time : 02/11/2026 08:00
Onsite Hours : 07:00

ASEC Report ID : 90280
Name of the Project : NW PH 2, UNIT 4
Project Location : Dallas
Weather : Light rain
Departure Time : 02/11/2026 15:00
ASEC Technician Name : Clyde Smith

As requested, the site was visited by our AS Engineering and Consulting (ASEC) representative for the purpose of providing quality control inspection and testing services. Visual observation techniques were employed to verify compliance with project drawing/specifications, applicable codes, and materials submittals. The following observations were observed on site this day.

On the above date our representative was on site to observe the grading contractor continue placing fill for building Lots #63 thru 65. The writer performed density tests using a Troxler Nuclear gauge until light rain began. Compaction results were in compliance with job specifications.

We appreciate the opportunity to be of service to you on this project. If you have any questions regarding this report, please feel free to contact us. We will be more than happy to discuss it with you.

Fill placement and density tests at Lots# 63 thru 65 .
