ASEC Report ID : 73757
Name of the Project : Old Griffin Rd - Hawthorne Reserve
Project Location : Dallas
Weather : Cloudy
Departure Time : 12/04/2024 16:15
ASEC Technician Name : Solomon Cherie

Our AS Engineering & Consulting (ASEC) representative arrived on site to observe field activities. The following tasks were performed:

Observed the placement of fill/grading for the access road today. Compaction tests were performed using a nuclear density gauge. Overall, the results of density testing confirmed that fill compaction met the project and ASTM requirements. One test did not meet job specifications for required compaction. The contractor was notified. Results are attached in separate reports.

Please contact us if you have any questions regarding this report or of the density test results.
